Thrives in both independent and collaborative team environments, ensuring meticulous attention to detail and client satisfaction.

Projects

Fullstack E-Commerce with Admin Dashboard

Aug 2024 - Sep 2024

Fullstack e-commerce website with an admin dashboard for managing products, orders, and revenues. Features seamless payment processing, secure authentication, and the ability for users to leave reviews on products after purchase, enhancing the overall shopping experience.

- Admin Dashboard: Manage products, categories, orders, and user accounts.
- Stripe Integration: Real-time payment status updates.
- Clerk Authentication: Secure user management with webhooks.
- Product Management: Add, edit, and delete products with images.
- Dark/Light Mode: Customizable UI theme toggle.
- Optimistic UI: Syncs with backend and local storage.
- Sales & Revenue Charts: Visualize business data with Recharts.
- Cloud Storage: File uploads via Next Cloudinary.
- PostgreSQL Database: Backend powered by Drizzle ORM.
- Responsive UI: Smooth and fast user experience.

Fullstack social media blog platform

Oct 2024 - Nov 2024

Fullstack social media blog platform with user authentication, rich text post creation, and post management. Users can write, edit, delete posts, comment on others' posts, and manage their content seamlessly. Features include real-time updates and secure user interactions.

- Frontend: Built with Next.js, React, TypeScript, and Tailwind CSS.
- User Authentication: Sign-in with secure authentication via NextAuth.
- Rich Text Editing: Create and format posts with React-Quill editor.
- Post Management: Write, edit, delete, and manage posts.
- Commenting: Engage with other posts through comments and updates.
- Real-Time Updates: Immediate reflection of changes in the UI.
- Secure Interactions: Authentication and encryption with bcrypt.js.
- Cloud Integration: Image handling via Cloudinary.
- Backend Support: Drizzle ORM for PostgreSQL database interactions.
